

Attention Price Residents:

WE NEED YOUR HELP!

With the current extreme drought conditions we are experiencing,

it is important to remember to

USE WATER WISELY!

Here are some guidelines we are asking all water users to observe:

OUTSIDE:

- **BE WISE**-Avoid outside watering between the hours of 10:00 am and 6:00pm.
- **DON'T OVER WATER**-Limit your outside watering to just the time needed, not letting sprinklers run unattended.
- **AVOID SUNDAY WATERING** – By avoiding watering on Sundays, the City's Water Treatment Plant is able to replenish our water storage capacity for the coming week.

INSIDE:

- **QUICKLY FIX LEAKS** – A leaky faucet or toilet can waste thousands of gallons of water and costs to your water bill. Keep your plumbing updated and free of unnecessary drips or leaks.
- **SLOW THE FLOW**- Turn off the faucet while brushing your teeth.
- **Fill 'ER UP**- Only run the washing machine or dishwasher when you have a full load.

WORKING TOGETHER WE CAN MAKE A DIFFERENCE!
